In total, Schneider has manufactured more than 15 million lenses and has created thousands of optical designs. The Schneider-Group has 550 employees worldwide.

INDUSTRIAL OPTICS Business Unit

Jos. Schneider Optische Werke GmbH designs, develops, manufactures and markets:

Optical and opto-mechanical components, subassemblies for machine vision and other image processing applications.

Standard products:

- Compact C-mount lenses
- Visible through Near IR corrected lenses
- Bilateral and other telecentric lenses
- Modular macro system
- Lenses for large sensors
- 3-CCD lenses
- Industrial filters
- Adapters and mounts

Competitive advantages:

- World class optical design & manufacturing expertise
- High optical and mechanical quality
- Robust opto-mechanical assemblies
- Flexible and individual customizations
- Professional consultancy

Applications:

- Surface & web inspection
- ITS and traffic law enforcement systems
- Document reading
- Postal identification and sorting
- Metrology, 2D/3D
- Medical imaging
- Biometrics

Our Mission:

Providing high-quality optical solutions for image processing applications helps system integrators and equipment manufacturers enhance their vision systems. Our engineering and product developments are driven by long-term partnerships with our customers. Our employees are the fundamental success factor and we trust in their commitment to solve our customer's problems. Our 90-years of expertise in optical design and manufacturing allows us to produce superior products provide a professional consultancy and support to contribute to the success of our customers.
